

Rules of Order for Board of Supervisors 3.05(2)(n)

The Solid Waste/Air Quality approved this change – January 20, 2006  
Motion carried 5-0.

This committee shall address the County's solid waste needs by operating hazardous waste removal programs, overseeing the County's interest in landfill siting processes, promoting recycling, and related waste reduction efforts, and engaging in planning and educational efforts for future solid waste needs. In addition, the Committee will maintain awareness and educate the public to air quality concerns in the County.
